

**Benefits of PGAA's Fractional Ownership model:**

- Get all the freedom, joy and adventure of flying - at a fraction of the cost
- Easy access to airplanes – with your own set of keys, you just schedule and go
- Take charge of your own flying destiny – as a shareholder, you help determine the future of the organization
- Become part of a great group of local pilots with similar interests – fly alone or participate in PGAA social activities
- **PGAA's economic fundamentals make for a sound investment**
- We make flying affordable—allowing you to make the trips you always wanted to make

**Cost**

Our fractional ownership model and low overhead makes flying convenient and affordable.

Typical share price (negotiated with seller)	\$15,000
Monthly (insurance, tie downs)	\$185
Cherokee 6 hourly (dry)	\$65
Archer II hourly (dry)	\$45

PGAA was founded in 2002, and has well established procedures to make ownership hassle-free.

PGAA makes flying affordable. Our fleet of two Piper Archers and one Cherokee 6 are professionally maintained. All our high quality aircraft are IFR certified.

With our unattended online scheduling system, you simply schedule time in the aircraft and you are ready to go flying. It is that easy!

PGAA Owner-Pilots have the benefits of airplane ownership in a unique ownership formula
